TEXPERTISE
the textile business network

Experience the innovations of the future today.

A sector in the fast lane.

There seem to be no limits to the range of applications and enormous innovative power of technical textiles. The sector is growing and with it the demand for future-oriented materials and sustainable developments. As the most important international industry platform, **Techtextil** presents the entire spectrum of technical textiles, functional apparel textiles and textile technologies. In 2024, the **20th edition** of Techtextil will again impress with its high international profile, the decision-making authority of its visitors and its wide variety of products. The fair also showcases the complete range of uses of future-oriented high-tech textiles to make products lighter and more functional. **Everything revolves around: Performance. Function. Future.**

Use this platform to forge profitable new customer relationships and meet relevant decision-makers from 12 application areas. Present your company at the most important international innovation platform and make new business contacts. The strong synergy effects with the parallel **Texprocess**, the leading trade fair for the processing of textile and flexible materials, ensure additional customer potential.

As part of the **Texpertise Network**, Techtextil – together with its worldwide network of trade fairs in North America and Asia – offers unique international market competence.

Together we are strong.

Help shape the future

Be part of the **20th edition of the international Techtextil trade fair**. Use this growing business platform to help shape the **future of the industry** with your products, technologies and new developments.

Benefit from the reach of Techtextil

Achieve **maximum global attention** with your products and innovations around technical textiles – and demonstrate your innovative capabilities to an **international trade audience**.

All top decision-makers in one place

Forge **new business alliances** with decision-makers from all over the world. Only at Techtextil will you meet buyers from 12 industry sectors and 95 countries.

Relevant content for your target group and you

The textile industry faces numerous challenges and is a hugely dynamic sector. **The latest research findings, technological developments and innovations** are the focus of the complementary Techtextil programme of events and address the needs of your target group.

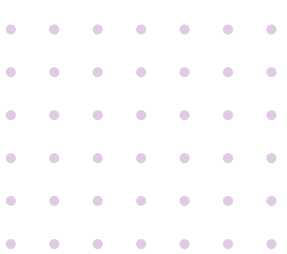

Making sustainability visible

Take advantage of the growing interest in sustainable developments. With its **Sustainability@Techtextil** label, the fair highlights the sustainability credentials of its exhibitors.

Exploit synergy effects

The product segments at **Techtextil and Texprocess cover the entire textile value chain**. Benefit from additional new contacts thanks to an **increasing number of visitors from Texprocess**.

The exhibition centre.

Easy navigation around modern halls.

The clearly organised structure and the signage between the halls mean that trade visitors will be able to find their way around the fair – and to your stand – quickly and easily. Visitors have direct access to all halls and exhibitors (including Texprocess), ensuring the ideal conditions for successful, face-to-face meetings.

The modern exhibition centre in Frankfurt meets all your requirements, is centrally located and is easy to access from all over the globe.

Product groups at a glance.

- Technology, processes, accessories
- Fibres and yarns
- Woven fabrics, laid webs, braidings, knitted fabrics
- Nonwovens
- Coated textiles
- Composites
- Bondtec
- Functional apparel textiles

12 application areas for your industry sector.

Agrotech

Agrotech presents the latest ideas and products for agriculture, forestry, horticulture and landscape gardening.

Clothtech

Clothtech showcases the latest developments and trends in shoe and clothing manufacturing.

Buildtech

Buildtech covers innovations for membrane construction, lightweight and solid structures, earthworks, hydraulic engineering and road construction.

Geotech

Geotech is the area for new concepts in road construction, civil engineering and dam and waste site construction.

Hometech

Hometech features innovative developments in the manufacture of furniture, upholstery, floor coverings and carpets.

Indutech

Indutech comprises solutions and products for mechanical engineering and the chemical and electrical industries.

Mobiltech

Mobiltech focuses on developments in ship and aircraft construction and all aspects of the automotive and aerospace industries.

Medtech

Medtech brings together the complete spectrum of innovations in medicinal and hygiene products.

Oekotech

Oekotech stands for new ideas and interesting concepts in environmental protection, waste disposal and recycling.

Protech

Protech highlights the latest developments in personal safety and property protection.

Sporttech

To play sport, you need the right kit. Sporttech stands for the latest products and ideas from the world of sport and leisure.

Packtech

The Packtech area includes all innovations in packaging and transportation.

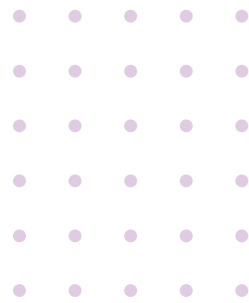

Sustainability

From vision to reality.

The **Sustainability@Techtextil** label allows visitors to identify companies with sustainable products and approaches at a glance. An independent jury of experts reviews the documentation submitted by exhibitors individually on the basis of international sustainability certification.

There is a particular emphasis on innovative and sustainable fibres, yarns and fabrics as well as progressive processes, new cutting technologies, water-conserving dyeing processes, bio-based high-tech textiles and other future-oriented processing technologies.

In this way, we are able to put the spotlight on the **sustainability concepts of exhibitors** for international visitors and the media. Benefit from the growing interest in **sustainably produced textiles and technologies** and present your environmental credentials.

Outstanding, forward-looking, innovative.

What awaits in 2024:

Techtextil Forum

This expert platform, which is open to all, will once again be a highlight for visitors and exhibitors in the fair's anniversary year. Internationally renowned experts will be exploring topics from numerous areas of application as well as the latest industry developments in a programme of **lectures and discussion panels**. Look forward to a programme of enthralling discussions.

Techtextil Innovation Award

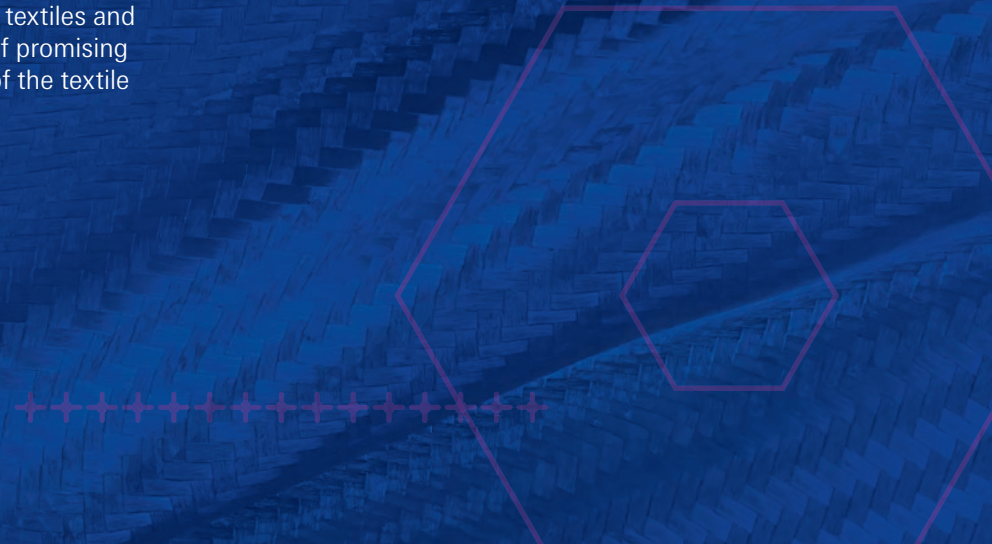

The award celebrates ideas and innovative solutions, **products and technologies** selected by a jury of experts. A **particular highlight** is the public presentation of the Techtextil and Texprocess Innovation Awards 2024.

The focus is on progressive approaches and numerous new developments in the field of technical textiles and textile processing. Here you'll find a host of promising and pioneering innovations for the future of the textile industry.

Our key areas of focus

A specific area of focus at Techtextil 2024 will be the theme of **Performance Apparel Textiles**. Particularly for exhibitors from the Clothtech, Sporttech and Protech application areas, this segment offers a wealth of know-how and opportunities for making contacts and doing business. The cross-sector theme for the year continues to be sustainability.

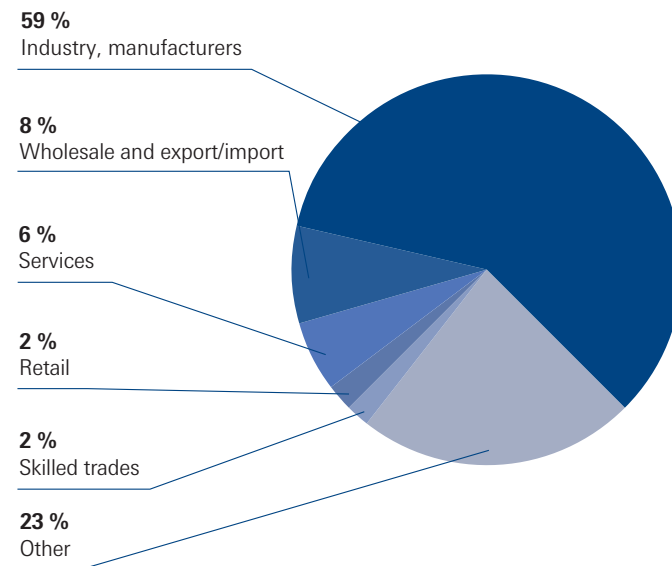

Thanks to technological innovation and optimisation in the technical textiles industry, the entire sector is moving ever closer to global sustainability goals.

Your chance to be here!

Exploit an array of business opportunities at the international meeting point for the technical textiles and non-wovens sector.

Make sure you're here for the **20th edition** of our leading trade fair in 2024. As an exhibitor, you'll not only attract international Techtextil visitors to your stand, but also visitors from the Texprocess fair. Take advantage of this valuable synergy effect and benefit from not just one, but two leading trade fairs at the same time.

The entire sector and trade media from across the globe come to Frankfurt to find you! Raise your international profile and meet your target groups. Top decision-makers from all over the world are here to gain a complete

market overview – and to close their most important deals directly at the fair. In the 12 application areas it all revolves around: **Performance. Function. Future.**

The fair also showcases the complete range of uses of high-tech textiles to make products lighter, more functional and sustainable. An international trade audience is keen to experience your innovative capabilities at first hand.

Our services for exhibitors.

Free promotional materials.
We offer a wide range of publicity materials to inform your partners and customers about your participation at Techtextil and to invite them to experience your trade fair presentation on site.

Support from A to Z.
We'd be delighted to advise and help you with all aspects of your trade fair presence – including stand construction, technology, rental furniture and equipment, publications, technical guidelines and logistics, passes and tickets, travel and accommodation.

Targeted campaigns to attract your trade visitors.
We invest in eye-catching, international publicity campaigns to attract the right visitors for you, e.g. with advertisements in trade magazines, online marketing, PR, direct marketing and social media activities.

Vouchers for your customers.
Invite your customers to the fair! For Techtextil, we will provide you with a contingent of exclusive visitor vouchers in unlimited quantities. The first 50 vouchers redeemed will be free of charge for you.

Texpertise Network

The entire industry under one roof.

Texpertise, the textile business network, is an expression of Messe Frankfurt's **commitment to the textile sector**. With a unique portfolio that currently includes around 50 international trade fairs in 11 countries, the company is the **world market leader** in textile trade fairs. The Texpertise Network covers the entire value chain of the textile industry and acts as a central communication platform, providing valuable information on the various textile trade fair brands.

With its Texpertise Network, Messe Frankfurt, in cooperation with the United Nations Office for Partnerships, puts the spotlight on the Sustainable Development Goals (SDGs) in a programme of panel discussions, press conferences, SDG Lounges and other initiatives at more than 50 events each year across the entire global value chain of the textile and fashion industry. It uses its global reach to act as a lever for positive transformation in the industry and to raise awareness of the relevance of the SDGs. This commitment to accelerating **innovation and change in the textile and fashion industry** may just be a drop in the proverbial ocean, but it does contribute to the achievement of the 2030 Sustainable Development Goals.
